Bristol.

7th December, 1990

Dear Sir,

F. Barton and Hereford City Council Planning Appeal

I understand that Mr. Barton has appealed against non-determination by the planning authority of his application for change of use in relation to the location of his vessel the Wye Invader on the River Wye at Hereford.

As a solicitor and a long-time campaigner for increased public access to the Inland Waterway network of this country, I am delighted to see that Mr. Barton has made use of the public right of navigation existing on the River Wye, and that he is seeking to bring back commerce and trade to the River.

I strongly support the application of Mr. Barton and hope that others will follow his example in utilising this neglected waterway and in bringing interest and commerce to the City of Hereford.

Yours faithfully,

N.Q. Grazebrook
